BE A FALSE KILLER WHALE RESEARCHER

HELP US TRACK THE WHALES AND DISCOVER WHAT THEY ARE EATING

Prey Items

On the map count the fish that FKWS eat. Put the total next to the silhouette of each one below. Count them all!

Mahimahi

(total)

'Ahi/ Yellow Fin Tuna

(total)

'Ono

(total)

A'u ku/ Swordfish

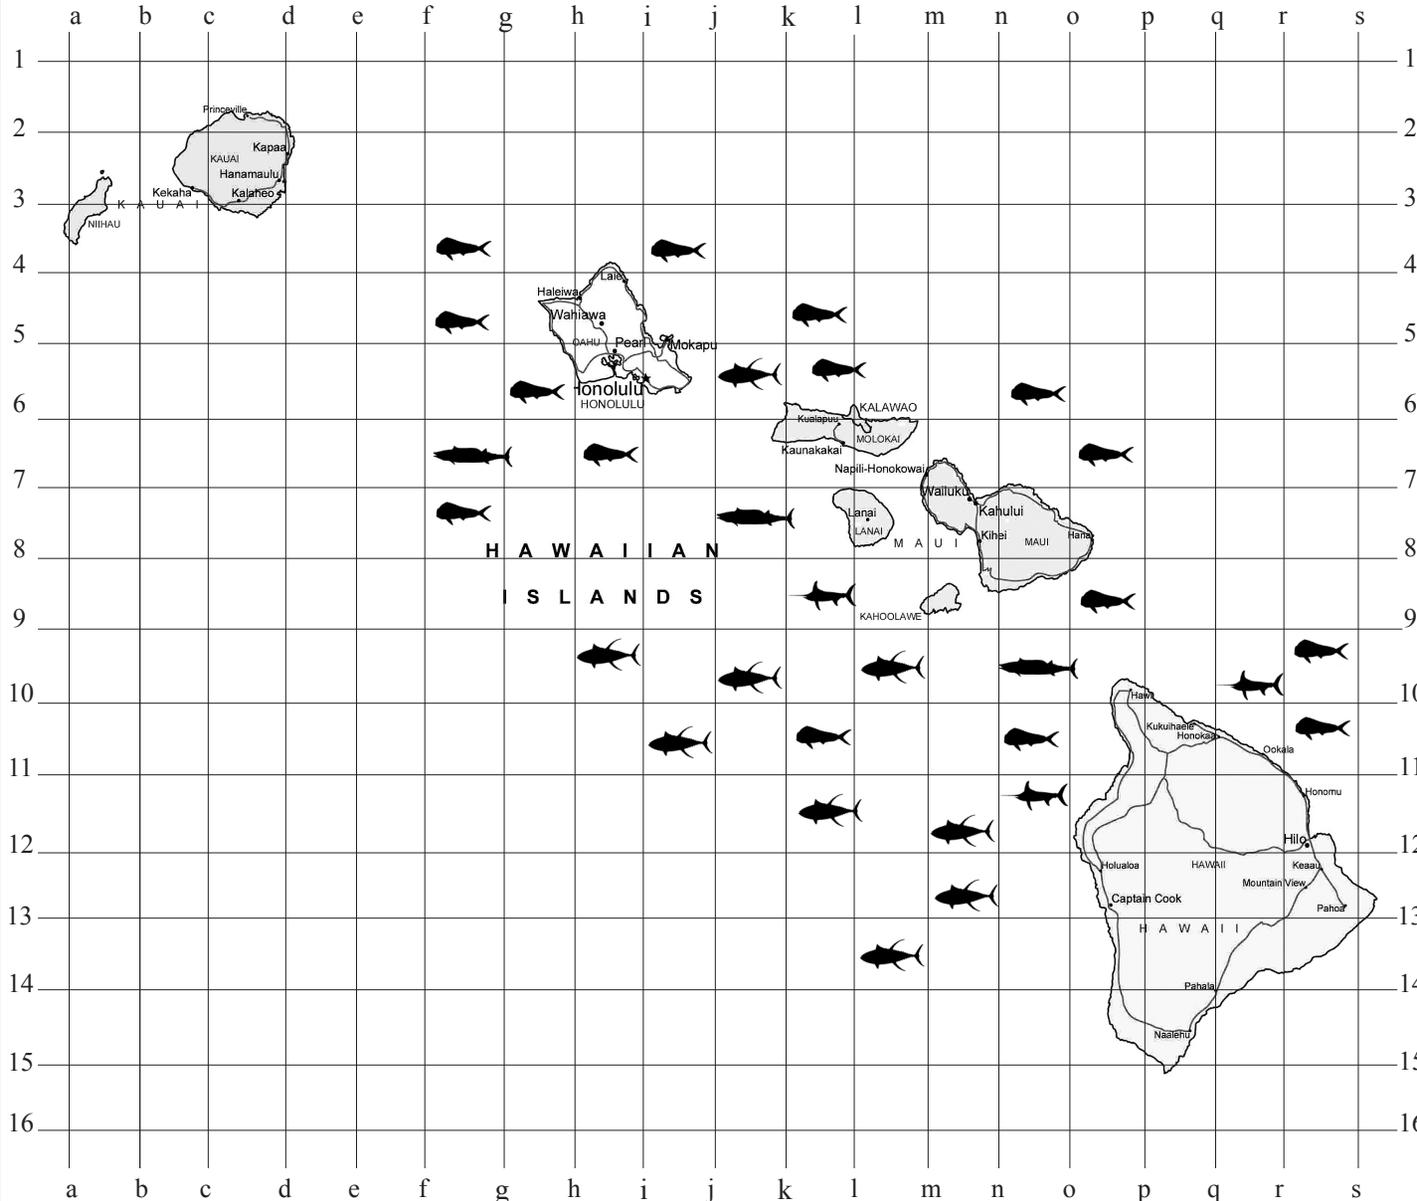

(total)

What's their favorite prey?

A full grown you...

A full grown pseudorca!

Track a FKW

These whales use an enormous amount of their Hawaiian habitat. Use the co-ordinates below to plot their travels on the map.

Don't forget to connect the dots and do not go over the land.

The whales don't!

- Point 1: Q10
- Point 2: S11
- Point 3: O9
- Point 4: O12
- Point 5: N13
- Point 6: K9
- Point 7: K7
- Point 8: G5
- Point 9: J9
- Point 11: H10
- Point 12: F4
- Point 13: J8
- Point 14: K4
- Point 15: P9
- Point 16: K8
- Point 17: I3
- Point 18: O7
- Point 19: N9
- Point 20: N6

You can help....

Eat only sustainably caught fish. <http://www.montereybayaquarium.org/cr/seafoodwatch.aspx>
If you, or someone you know likes to fish, use circle hooks, which reduce bycatch.
